

Help (if you need it)

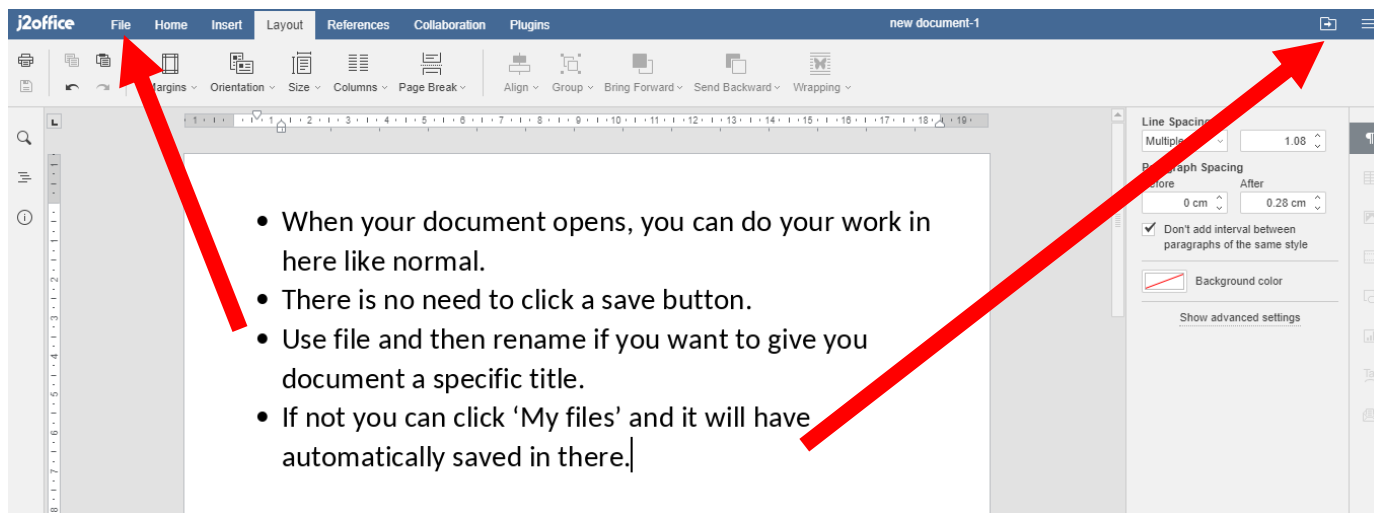

It has been lovely to see so many children accessing J2E – well done everyone. I have noticed a few people unsure how to create documents so instructions are below. Remember, you can also do work on paper to bring in when you come back to school.

If you want to start your own document, on your main screen (the dashboard) you need to click the 'J2Office' button. My dashboard looks a little different as I have a teacher account.

This works like Microsoft Office and will give you these choices:

I hope that helps! You can also open and add to a document sent to you by your teacher, this will automatically save like the above.

There are some other apps on J2E that you can explore too 😊
