Head Teacher's Message

Dear families,

This week is beautifully sunny! Exam season is well underway and we are very proud of how the Year 6 children supported each other last week and used this as their chance to show what they know. We are equally proud of how our Year 2 children have started with their tests.

Chelmsford Concrete Canvas Street Art – We won!

Have you seen our winning artwork across Chelmsford? Children from our school were the winners and have had their fabulous designs installed on to the concrete underpasses along the bunny walks between Arun Park and Fifth Avenue. The artwork is huge! If you get a chance to go and see it, you will see the artist thank our school personally. We are visiting our artwork with Vicky Ford MP on Friday 20th May. We have had phone calls from members of the public to say how beautiful the art the children designed is. Well done to everyone who entered and to those who were lucky enough to have their artwork presented to Chelmsford! The artwork is part of the Concrete Canvas Street Art Festival being held across May, there is lots going on during the 14th – 28th May to celebrate the work of all the artists and the artwork in this festival.

Hot and sunny

Please make sure your child has a water bottle with them each day, a sun hat – these are available as part of our uniform. As the sun becomes stronger we advise you to put sunscreen on your child before they come to school; the long lasting ones can provide protection

across the school day.

Healthy snacks for breaktime

If you are providing your child with a snack for breaktime, please ensure it is healthy. I have included a link to provide some guidance from the DfE and the NHS' 5-a-day campaign to support you.

Jubilee Lunch – 10th June

We are excited to share that we will be having a Jubilee themed lunch for children on 10th June, to mark the Queen's Platinum Jubilee. Information has already been sent to you about the lunch choices. Please book your child's choices for their lunch by 20th May. If you would like further information about this, please contact the school office.

Young Voices

Our Year 5 and 6 children are off to perform at Young Voices at the O2 on Monday next week. It is a monumental opportunity to perform the songs they have been rehearsing for a long time and join other schools in the concert at the O2. We wish them lots of luck and know they will enjoy their chance and take in the atmosphere and location.

School Clubs

I am so pleased so many children are enjoying our school clubs. The number of these on offer has increased since the Autumn Term, as has the number of places we are able to offer. Now, nearly three quarter of the whole school has accessed a club since we started clubs again. Nearly all of our clubs have waiting lists. If your child does not want their space, please contact the school office so that the space can be reallocated. We are hoping to offer more clubs and more choice again for September!

Long COVID for children

I have included a poster from the local authority to provide you with information about Long COVID in children.

Please take a minute to explore the information.

Free Meals Thursday

Springfield Park Baptist Church is holding Free Meals Thursday at 5.30pm. The church are inviting you to join them for a meal. There is no cost for the meal and all are welcome.

Parking

During busy times at the start and end of the school day, parking is becoming an issue for families and children, as well as for residents in the houses locally. Please ensure you are parking safely and responsibly. Alternatively, please park a short distance away in the retail parks at Chelmer Village or Riverside retail parks and walk the remaining short distances to school. Parking wardens are working in this area and will be conducting regular patrols due to the number of parking incidents that are happening outside the school.

Have a super week everyone.

Long COVID information for children and young people

What is long COVID?

The term "long COVID" is commonly used to describe signs and symptoms that continue or develop after acute COVID-19. It includes both ongoing symptomatic COVID-19 (4 to 12 weeks after the infection started) and "post-COVID-19 syndrome" (symptoms lasting 12 weeks or more).

Anyone infected with COVID-19 can get long COVID – even if the original symptoms were mild. This includes young people aged 0 to 25 years. Research shows that between 1.8% and 53% of children who tested positive for COVID will have at least one symptom suggesting long COVID.

What are the symptoms?

The most frequently reported symptoms are changes in a young person's:

- Energy levels (83.3% are affected)
- Mood (58.8%)
- Sleep (56.3%)
- Appetite (49.6%)

Remember, children may experience these difficulties in different ways from adults.

I think my child may have long COVID – what should I do?

If you are worried that you or your child have any of these symptoms and it is affecting how they live and function, please book an appointment with your GP. Ask for a referral to the long COVID team. Your GP might need to do some tests to rule out other conditions.

What do the long COVID team do?

We are a multi-professional team of doctors, nurses, physiotherapists, associate practitioners, other allied health professionals and administrators who deliver treatment aimed at promoting recovery, restoring function – and helping you, your child and their school manage the condition. We do this through assessment, support groups, education and rehabilitation.
